SUBSECTION	TITLE	PAGE
1	INTRODUCTION	
1.1	Objectives	4
1.2	Guidance	4
2	RECOMMENDED PRACTICE	
2.1	Risk Management	5
2.2	Wind Characteristics	5
2.3	Limiting Conditions	5
2.4	Managers and Supervisors	6
2.5	Foremen, Chargehands and Erectors	7
2.6	Designers	8
APPENDICES		
A	WIND CONDITIONS	
A.1	Wind Speed and Pressure	9
A.2	Mean Speeds and Gusts	9
A.3	Deteriorating Conditions	10
B	MANAGEMENT	
B.1	General	12
B.2	Erection Code Requirements	12
B.3	Effect of Conditions	13
B.4	Additional Precautions	14
C	DESIGN	
C.1	The Designer's Role	17
C.2	Design Erection Sequence	17
C.3	Design Cases	
	Site conditions	17
	Transient conditions	18
	Working conditions	19
	Dynamic conditions	20
C.4	Other Design Considerations	
	Support conditions	21
	Safety factors	22
	Robustness in the part-erected condition	22
	Design assumptions	22
	References	24
	Acknowledgments	24
