Disclaimer	ii
Foreword	iii
Contents	v
Summary	vii
Notation	viii
1 Introduction	9
1.1 Background	9
1.2 Lifting accessories	10
1.3 Relevant standards	11
1.4 General notes on the guide	12
1.5 Terms and definitions	12
2 Machinery Regulations	15
2.1 General	15
2.2 Applicable health and safety requirements	15
2.3 Technical File	16
2.4 Information necessary for safe operation	17
2.5 Conformity assessment procedure	18
2.6 EC Declaration of Conformity	18
2.7 Affix the CE marking — or UK equivalent — to the machinery	19
3 Design and testing of lifting accessories	21
3.1 General	21
3.2 Codes and Standards design provisions	21
3.2.1 Machinery Regulations	21
3.2.2 European Design and Execution Standard for lifting attachments	22
3.2.3 ILO Code of Practice Safety and Health in Ports	24
3.2.4 American Standard for Design of below-the-hook lifting devices	24
3.3 Verification of lifting accessories	24
3.3.1 General	24
3.3.2 Lifting Operations and Lifting Equipment Regulations	25
3.3.3 Load testing	25
3.3.4 Mechanical strength calculation	26
3.4 Comparison of factors of safety	26
3.5 Design quality control	27
3.6 Execution of lifting accessories	28
4 Recommendations for design and testing of lifting accessories	31
4.1 General	31
4.2 Recommendations for design and testing	31

4.2.1 Load factors of safety	31
4.2.2 Design procedures	32
4.2.3 Verification of mechanical strength without static test	32
4.2.4 Verification of mechanical strength by static test	32
4.3 Summary	33
5 Concluding remarks	35
Annex A: Technical File	37
Annex B: Declaration of Conformity and CE marking	41
Annex C: Structural design of lifting accessories – Examples	43
References	49
